

CARE PRODUCT

Sealing and Caring of Natural Stone

Stone Sealer Satin Finish

Sealer which contains solvents and high-grade acrylic resins. It is weather-resistant and non-yellowing

Application:

The colourless acrylic coating provides long-term protection and is water and dirt-resistant. It is used to seal porous and absorbent surfaces. Colours and structures appear more intensive. On account of the sealed surface, the stone is easier to care for. Preferably used indoors.

Size	Sales Unit	Art No.
1000 ml bottle	6	1 08 38

Coverage: approx. 10 -20 m²/liter;
depending on the absorbency of the stone

Super-Gloss

High-gloss lacquer made of high-quality synthetic resins and waxes, very strong colour intensification, stable to yellowing, fast drying

Application:

For re-working of rough, ground, porous and absorbent natural and artificial stone surfaces. Especially suited for surfaces on which mechanical polishing is difficult or impossible due to their condition or position, e.g. edges, corners, reliefs, statues, frescos, columns or borders.

Size	Sales Unit	Art No.
250 ml bottle	20	1 20 39
750 ml bottle	6	1 09 76

Polishing Fluid No. 10-2012

Very liquid, Fast-drying product. Contains solvents, high-quality waxes and synthetic resins (free of trichloroethylene and CHC), intensifies the colour of the stone

Application:

Polishing and care product to protect all kinds of natural and artificial stone. It can be polished up well and renewed as required. For indoor use.

Size	Sales Unit	Art No.
250 ml bottle	20	1 08 23
1000 ml bottle	6	1 08 20

Coverage: approx. 15 -30 m²/liter;
depending on the surface finish

Solid Wax

Hard wax for the treatment of horizontal and vertical surfaces like window sills, tiles, corners and edges made of fine ground or polished natural and artificial stones like marbles, granite, slate, travertine, terrazzo and aggro

Application:

Produces a long-lasting gloss, closes fine scratches, intensifies natural colour and structure. Can be used indoors and outdoors

Size	Sales Unit	Art No.
750 ml can	6	1 19 07

Coverage: approx. 30 -60 m²/liter;
depending on the surface finish

CARE PRODUCT

Sealing and Caring of Natural Stone

Spider Black

Black, fast drying, solvent-containing product made of high-quality waxes and synthetic resins, free of trichloroethylene and CHC, intensifies the colour of the stone

Application:

Polishing and care product which hides micro-fissures and the spider web effect that can be seen on certain dark or black stones. Suitable for fine ground or polished natural and artificial stone, can easily be polished on and renewed if necessary. For indoor use.

Size	Sales Unit	Art No.
1000 ml bottle	6	1 09 63

Coverage: approx. 15 -30 m²/liter;
depending on the surface finish

AK-Shine **NEW!**

Ready for use care product made from high-quality active ingredients, CHC-free

Application:

Restores the shine and colour of finely ground and polished natural stone and quartz (e.g. window sills, Floors), can be polished quickly and very easily, provides a short-term water and dirt-repellent effect, treated surfaces remain permeable to water and breathable, for indoor use.

Size	Sales Unit	Art No.
750 ml bottle	6	1 21 06
3750 ml bottle	2	1 20 93

Triple Effect **NEW!**

Ready to use, highly effective stone care and impregnation spray. Contains modified organic compounds, combined with cleaning components which do not form layers. Natural fresh odour. Food Safe (certified by an external German testing Institute)

Application:

For the regular care and protection of finish, ground and polished natural and artificial stone (such as marble, granite and concrete ashlar). Three effects are achieved in one single operation: deep cleaning; water, oil and grease repellent protection; restores lustre.

Size	Sales Unit	Art No.
250 ml spray	6	1 08 46
500 ml spray	6	1 18 53

High Performance Floor Protection

High quality surface protective clear coat for cement based floors. It forms a very thin coat that hardens and seals concrete floor surface. The coating produces a dust repellent, chemical resistant and water tight surface. The product is based on reactive Nano lithium chemistry. It forms an insoluble bond with concrete surface

Application:

For Concrete floor, Terrazzo floor and cement tiles floor.

Size	Sales Unit	Art No.
1000 ml bottle	6	1 32 94
5000 ml plastic canister	2	1 32 95
25000 ml plastic canister	1	1 32 96

Coverage: approx. 25 -30 m²/liter;
depending on the absorbency of the surface.
