

A photograph of a swimming pool with a blue tiled bottom. Two inflatable rings are floating on the surface: a light blue one with a cartoon face and a red one with black dots. A metal pool ladder is visible on the right side. The foreground shows the dark, textured edge of the pool deck.

Aquastop

Specialised
waterproofing systems
with unique performances

kerakoll

Aquastop Nanoflex

Single component breathable, anti-alkali & chlorine-resistant mineral waterproofing membrane

→ Crack-bridging ability

→ 20% better coverage than two-component systems

Pack Size:
20 kg

For more info, refer technical datasheet.

kerakoll

Aquastop P6

Multi-purpose SBR Latex, ideal for
waterproofing & polymer modified mortar

- Reduces water absorption
- Reduces cracking and increases surface compactness

Pack Size:
1 kg / 5 kg / 25 kg

For more info, refer technical datasheet.

kerakoll

Aquastop Flex

Two component, cementitious waterproofing membrane for bathrooms & balconies

- High adhesion to absorbent and non-absorbent substrates
- High compatibility with cement-based adhesives
- High workability

Pack Size:

Part A 15 kg

Part B 7.5 kg

For more info, refer technical datasheet.

kerakoll

Aquastop AR1

Special reinforcing mesh made of alkali-resistant glass fibre surfaces
Strengthen the waterproofing membrane on horizontal surfaces

- Superior mesh with Aquastop Nanoflex
- High shear strength in both directions
- Without memory effect

Pack Size:
50m x 1 m

For more info, refer technical datasheet.

kerakoll

Aquastop 120

Flexible NBR waterproof joint for corner treatment
of perimeter & fractionizing joints

- For internal and external use
- Guaranteed waterproofing of all types of
non-structural fractionising and connection joints
- Alkali-resistant

Pack Size:
50mx120mm

For more info, refer technical datasheet.
