

Sealers

MaxiSeal plus

MaxiSeal plus is a nano technology based impregnating sealer designed for the protection of all highly porous tile/stone and grout surfaces. This product imparts oleo phobic properties, highly resistant to oil, water, alkalis, acid staining and freeze-thaw damages. It penetrates into the surface and forms an invisible barrier by allowing vapour to escape. It keeps the natural colour of tile & stone intact. All surfaces treated with MaxiSeal plus are harder and less slippery. It is ideal for interior as well as exterior applications and recommended for granite, marble, sand stone, porous slate, brick and sanded grout.

Surface should be thoroughly dry & moisture free and cleaned with cloth, brush or vacuum cleaner before applying the sealer.

Applications:

- For interior & exterior applications on tile and stone surfaces

Advantages:

- Nano-impregnating technology • High resistance to oil stains • Weather resistant • Superior coverage • Economical • Easy to use • U.V. resistant • Low VOC after application • Resistance to stains, water & oil repellent

Coverage: 25 - 400 sq. ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Field Test: It is highly recommended to perform field test to understand the absorption nature of the substrate. This will help maximize the performance and efficiency of MaxiSeal plus.

MaxiSeal aqua

MaxiSeal aqua is nano technology based impregnating sealer with water as a carrier designed for the protection of all highly porous tile/stone and grout surfaces. This product imparts oleo phobic properties, highly resistant to oil, water, alkalis and acid staining damages. It penetrates into the surface and forms an invisible barrier by allowing vapours to escape.

It keeps the natural colour of tile & stone intact. All surfaces treated with MaxiSeal aqua are harder and less slippery. It is ideal for interior as well as exterior application and recommended for grout, ceramic tiles, porcelain tiles, granite, marble, lime stone and brick.

Surface should be thoroughly dry & moisture free and cleaned with cloth, brush or vacuum cleaner before applying the sealer.

Applications:

- For interior & exterior applications on tile and stone surfaces

Advantages:

- Nano-impregnating technology • High resistance to oil stains • Weather resistant • Superior coverage • Economical • Easy to use • U.V. resistant • Low VOC after application • Water repellent

Coverage: 25 - 400 sq. ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Field Test:

It is highly recommended to perform field test to understand the absorption nature of the substrate. This will help maximize the performance and efficiency of MaxiSeal aqua.

Sealers

After sealer application

Absorption of stains before application of sealer

MaxiSeal

MaxiSeal is a nano technology based impregnating sealer designed for the protection of all medium to dense porous tile/stone and grout surfaces. This product is formulated for resistance against water, alkalis, acid staining and freeze-thaw damages.

It penetrates into the surface and forms an invisible barrier by allowing vapour to escape. It keeps the natural colour of tile & stone intact. All surfaces treated with MaxiSeal are harder and less slippery. It is ideal for interior as well as exterior applications and recommended for grout, brick & masonry surfaces, granite, marble, ceramic and porcelain tiles.

Surface should be thoroughly dry & moisture free and cleaned with cloth, brush or vacuum cleaner before applying the sealer.

Applications:

- For interior & exterior applications on tile and stone surfaces

Advantages:

- Nano-impregnating technology • Weather resistant • Superior coverage
- Economical • Easy to use • U.V. resistant • Low VOC after 72 hrs of application • Resistance to stains water repellent

Coverage: 25 - 500 sq.ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Field Test:

It is highly recommended to perform field test to understand the absorption nature of the substrate. This will help maximize the performance and efficiency of MaxiSeal.

LATICRETE® 190 Sealer

LATICRETE® 190 Sealer is a nano technology based penetrating sealer which forms an invisible water repellent coating. Applied on natural stone, marble, brick, limestone and mortar joints, it will seal the surface to reduce staining and water absorption. It will not change the colour of the stone and ceramic tile.

Uses:

- Interior and exterior sealer to protect installations
- Seals mortar and plaster
- Reduces the effect of efflorescence
- Can be used as a grout release by treating ceramic tile before the application of grout
- Repels water and rain

Applications:

Residential & commercial, ideal for soft and natural stone, marble and porous tiles.

NOT RECOMMENDED FOR NATURAL STONES INSTALLED WITH TRADITIONAL CEMENT SLURRY SYSTEM.

Advantages:

- Weather resistance - protects stone, brick and tile
- Easy to apply - no special tools required
- Water-based, non-flammable
- VOC: Very low

Coverage: Approximately 75 sq. ft. per litre.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails.

Colour • Gloss Enhancers

Preserva plus

Preserva plus is a single component solution for enhancing and sealing the natural colour of flamed, tumbled and textured stone surfaces. Preserva plus functions on the surface of the substrates. It penetrates into the surface and forms an invisible barrier by allowing vapour to escape. It enriches and gives a wet look to the natural color of the stone and tile.

It protects tile/stone surfaces against oil based stains. All surfaces treated with Preserva plus are harder and less slippery. It is ideal for interior as well as exterior application and recommended for Flamed Granite, Flamed Limestone, Tumbled Marble, Textured Natural Stone.

Surface should be thoroughly dry & moisture free and cleaned with cloth, brush or vacuum cleaner before applying the product.

Applications: • For interior & exterior applications on textured natural stone surfaces.

Advantages:

- Nano-impregnating technology • Weather resistant • Superior coverage
- Economical • Easy to use • U.V. resistant • Low VOC after application
- Water repellent • Stain resistant • Oil repellent

Coverage: 25 - 400 sq.ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Field Test:

It is highly recommended to perform field test to understand the absorption nature of the substrate. This will help maximize the performance and efficiency of Preserva plus.

Preserva

Preserva enhances the natural colour of flamed, tumbled and textured stone surfaces. When combined with our range of Sealers, it preserves and enhances the original beauty of the unsealed natural stone. Preserva functions on surface of the substrates. It penetrates into the surface and forms an invisible barrier by allowing vapour to escape. It enriches and gives a wet look to the natural colour of the stone and tile. All surfaces treated with Preserva are harder and less slippery. It is ideal for interior as well as exterior applications and recommended for Flamed Granite, Flamed Limestone, Tumbled Marble and Textured Natural Stone.

Surface should be thoroughly dry & moisture free and cleaned with cloth, brush or vacuum cleaner before applying the product.

Applications:

- For interior & exterior applications on textured natural stone surfaces.

Advantages:

- Nano-impregnating technology • Weather resistant • Superior coverage
- Economical • Easy to use • U.V. resistant • Low VOC after application
- Wet look

Coverage: 25 - 400 sq.ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Field Test:

It is highly recommended to perform field test to understand the absorption nature of the substrate. This will help maximize the performance and efficiency of Preserva.

Cleaners

Clenza™ EG

Clenza™ EG is a non-acid cleaner to remove epoxy grout haze from tile, concrete and stone surfaces. The unique non-acidic formula makes it safe to be used on marble and other calcium based stones. Clenza™ EG does not leave behind residue or any harmful deposits. In addition to epoxy, Clenza™ EG will also remove acrylics, gums, varnishes, lacquers etc. Clenza™ EG is fast acting and easy to use.

Applications:

• Ceramic tiles • Vitrified tiles • Natural stone • Concrete

Advantages:

- Fast acting
- Non-acidic
- Non-corrosive
- Easy to use

Coverage: 15 - 50 sq.ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Clenza™ GA

Clenza™ GA is an acidic cleaner which can be used to remove grout and adhesive haze, hard water deposit and other hard stains from tile and stone surfaces. Clenza™ GA is water soluble and can be used at desired concentration levels for stain removal. Clenza™ GA can be used in interior as well as exterior applications.

Applications:

• Ceramic tiles • Vitrified tiles • Concrete* • Masonry • Glass tile

*Acidic cleaners may leave a mark on the surface and also may damage.

Advantages:

- Fast acting
- Non-acidic
- Non-corrosive
- Easy to use
- Economical

Coverage: 15 - 50 sq.ft. per litre depending on porosity of the substrate, degree of efflorescence, stains and dilution

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Cleaners

Clenza™ AQ

Clenza™ AQ is a concentrate to be diluted with potable water as per need to clean all surfaces. It is a non-toxic cleaner which can be used for daily maintenance and to remove tough stains.

This neutral pH cleaner is most suitable for cleaning marble and other calcium based stones. Clenza™ AQ is also recommended for regular maintenance of sealed stone surfaces. It is effective and easy to use.

Applications:

- Interior & exterior areas • Kitchens • Bathrooms • Counter Tops

Advantages:

- Non-acidic
- Non-corrosive
- Bio-degradable

Coverage: 250 – 2500 sq.ft. per litre depending on porosity of the substrate, dilution and stains

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Clenza™ MC

Clenza™ MC is a non-toxic cleaner which can be used for daily maintenance of marble flooring. The neutral pH cleaner is most suitable for cleaning marbles and other calcium based stones. Clenza™ MC is also recommended for regular maintenance of sealed stone surfaces.

Applications:

All types of marble surfaces

Advantages:

- Interior & exterior use
- Economical
- Fast acting
- Easy to use

Coverage: 50 - 150 sq.ft. per litre depending on porosity of the substrate.

Packaging: 1, 5 ltrs. cans & 20 ltrs. pails

Tile Cleaner

Clenza™ TC

Clenza™ TC is a fast acting acid based cleaner for regular cleaning of dirt and stains on tile surfaces. Clenza™ TC is designed for daily maintenance of tiles. It is ideal for interior and exterior use.

Applications:

- Unglazed Ceramic Tile • Glazed Ceramic Tile • Vitrified Tile
- Porcelain Tile • Glass Tile

Advantages:

- Cleans dirt and removes stains
- Easy to use
- Fast acting

Coverage: Depends on porosity of the substrate.

Packaging: 500 ml, 1 ltr bottles & 5ltr can

Tap and Shower Cleaner

Clenza TS™

Clenza TS™ Tap and Shower Cleaner is a specialty cleaner designed to remove hard water stains, limescale stains and stubborn soap scum from CP fittings and sanitary ware.

Applications:

- Speciality cleaner for CP fittings & sanitary ware

Advantages:

- Restore shine & gloss
- Removes stubborn soap scum, hard water stains and limescale stains

Coverage: Coverage depends on the nature of surface and intensity of stains on the surface.

Packaging: 200 ml & 450 ml spray bottles
